Experience

06/09 - present
Boston Logic Technology Partners
Web Designer

Designed, built, and maintained websites built with Ruby on Rails and Wordpress. Used latest web technology including CSS3, Javascript, and Flash. Created a library of theme designs for a real-estate website platform. Acted as lead designer on an identity project for a startup search engine.

07/08 - 12/08
Metropolis Creative
Graphic Designer

Worked on print and web projects for a small design studio with a diverse list of clients. Designed and updated client websites, tradeshow graphics, and marketing materials. Participated in brainstorming and creative concepting meetings. Communicated with clients daily via phone and e-mail. Responsible for preparing and sending documents to printers. Also updated the company website with features such as a blog and mobile-friendly mini-site.

07/06 - 12/06
Baseline Development Group
Digital Production Specialist

Prepared and edited book files for educational publishing. Edited images and graphics with Adobe Photoshop and Illustrator. Exported PDFs and printed books in various stages of production. Responsible for meeting deadlines.

06/06 - present
Cystic Fibrosis Worldwide
Newsletter Designer

Designed five editions of the newsletter. Corresponded with the editor via e-mail to get content, exchange files, and make edits. Designed a logo for the "Building Bridges" campaign to build clinics in foreign countries.
